Summary

Computer Science & Engineering student. Passionate about Machine Learning, NLP, and Knowledge Graph systems. Seeking engineering or research roles in applied AI and intelligent systems.

Education

Amrita Vishwa Vidyapeetham

B.Tech in Computer Science and Engineering (6th Semester)

CGPA: **9.28**

Indian Institute of Technology Madras

2023 – Present

Diploma in Programming

GPA: **8.4**

CBSE - Class XII (MPC) 2022

Score: **97.4%**

Experience

KodeAstra Innovations Private Limited, Coimbatore

Apr 2026 – Jun 2026

- Built a manual editing platform with **PlateJS** along with an **LLM-integrated assistant** for intelligent content editing, validation, and structured data processing.

Projects

Retrieval-Augmented Generation (RAG) System for Exam-Oriented Question Answering

- Built an end-to-end exam question retrieval system in **Python** using web crawling (BeautifulSoup, Requests), PDF ingestion, and semantic chunking with **LangChain**.
- Generated dense vector embeddings with **Sentence Transformers**, stored in **SQLite**, and enabled context-aware retrieval via cosine similarity; surfaced through a **Flask** web interface.

Knowledge Graph-Driven QA System for Polyhouse Data

- Built an ontology-driven QA system using **TTL (Turtle)** knowledge representation, with embedding-based retrieval and **LangChain** LLM integration for ontology-aware responses.
- Fine-tuned a transformer-based model to generate **SPARQL queries** from natural language, enabling interpretable querying over the knowledge graph.

VidhimurAI - AI Legal Intelligence Platform

Girls Hackathon Winner - 2026

- Built a AI multilingual legal assistant that converts plain-language citizen queries into complete legal packages: complaint drafts, case precedents, statute identification, legal strength scoring, and procedural roadmaps.
- Designed a hybrid pipeline combining deterministic rule-based case retrieval with **LLaMA 3.3 70B** (Groq API) for deterministic legal content generation.

Achievements & Certifications

- Girls Hackathon Winner** - Amrita Vishwa Vidyapeetham; built VidhimurAI, an AI-powered legal access platform for Indian citizens.
- IIT Madras Foundation in Data Science** - GPA: 8.63
- Business English Certificate (Preliminary)**, Cambridge University Press & Assessment English - *Distinction* (2022)

Technical Skills

Languages: Python, Java, C++, C, SQL

AI / ML: Machine Learning, NLP, Knowledge Graphs, RAG, LLM Fine-tuning, Sentence Transformers, LangChain, SPARQL

Core Computer Science: Data Structures and Algorithms, Embedded Systems, Operating Systems

Soft Skills

Team Collaboration - Technical Communication - Problem Solving - Leadership
